Hung Wei *for* Cupertino City Council

My Promises to You

1. Collaboration for Good Governance & Fiscal Responsibility

Responsibly use city resources to provide excellent services for residents to ensure quality of life.

“I have the experience, innovation, and commitment to tackle challenges during this time of crisis and beyond. Now, more than ever, we need City Council members who will push to find rational solutions and get things done for residents.”

-- Hung Wei

2. Maintaining Our Neighborhood Integrity

Provide housing solutions for seniors, teachers, and moderate-income families while strategically navigating state housing laws.

3. Environmental Leadership

Make Cupertino sustainable by implementing transportation strategies to reduce traffic and emissions while promoting clean water and air.

I have the values, experience, and commitment to represent our residents on the City Council. I served our residents for eleven years as Fremont Union High School District Board Trustee and am an Adviser for the Mental Health Study Group of YAPA (Young American Policy Advocates). I have earned a reputation for listening to all sides of an issue, increased school funding and classroom resources, and supported programs to prepare students for 21 st Century jobs.

I have been a **student-focused** School Trustee and I will be a **resident-focused** City Councilmember. My record serving 11 years as a School Trustee and 20+ years of community service has earned me support from residents and businesses in our City. Contrary to claims made by some people who really don't know me, I am not developer-controlled, nor backed by special interest groups - as is proven by the broad endorsements I have received from public officials.

SUPPORTED BY RESIDENTS
- NOT DEVELOPERS.
